DETAILED ACTION

Claim Objections

1. Claims 3-14 are objected to because of the following informalities: claim 3, line 2, after "calculator", "further" needs to be inserted. Claim 6, line 4 recites "a fourth adder" however, there is no previous limitation to a first, second, and third adders. Claim 7, line 1, after "calculator", "further" needs to be inserted; line 5 recites "a fifth adder" however, there is no previous limitation to a first, second, third and fourth adders; line 5, "the output signal of the predetermined level" should be replaced by "the stored kth field synch signal of the predetermined level outputs from the decision unit" so as to be consistent with antecedent; line 6, "value" should be replaced by "values" so as to be consistent with antecedent. Claim 14 is equivalent to claim 7, therefore claim 14 should similarly amended as claim 7. Claim 8, line 10, "and" should be replaced by "wherein the"; last line, before "multi-paths", "the" should be replaced by "filters the received" should be inserted. Claim 9, after "N", ",", should be deleted; line 4, "and" should be replaced by "wherein the"; line 5, "of" should be replaced by "calculates". Claim 10, line 4, "and" should be replaced by "wherein the"; line 5, after "calculating, "calculates" needs to be inserted. Claim 11, line 1, before "method", "equalization" should be deleted so as to be consistent with antecedent. The same comment applies to claims 12-13, respectively. Note that any claim whose base claim is objected is likewise objected. Appropriate correction is required.

Allowable Subject Matter

2. Claims 1-2 are allowed.

Art Unit: 2611

3. Claims 3-14 would be allowable if amended to overcome the objection set forth above.

Conclusion

4. This application is in condition for allowance except for the formal matters note above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
